WARREN WINSLOW, Esq., of Cumberland.

Look at Virginia! There she Stands! Daniel Webster, once the great, glorious, though often erring representative and impersonation of the old Bay State, proudly exclaimed in his place in the Senate of the Union, "Massachusetts! there she stands! look at her!" and with all his faults she was proud of him, and he of her, but how fallen is she now from her high estate-ruled by the lowest of the low, and the vilest of the vile! Look at her again, and where does she stand-where did she stand even before the mighty heart of Webster had ceased to beat. But look at old Virginia, there she standsthe great, the noble, the invincible land of Washington and Jefferson, the home of constitutional liberty, and genuine Republican States Rights Democracy, the great old mother of States-still she stands faithful out the road of safety for the Southern people, warning them against northern isms and northern fanaticism-rolling back as she has always rolled back their swelling tides, and refusing to be deceived, no matter how the deceiver might disguise himself .-Aye, look at old Virginia, there she stands and the South will stand with her, conservative, constitutional, unfanatical, placing her foot upon the neck of tyrants, and tyrannies, as her noble escutcheon proclaims, and on no more ruthless or more truculent it don't care a-copper, so it can whip the mean, tyrant did she ever place her foot than she did on the 24th of May, 1855. The more the isms go up, the farther are they bound to go down. The mcre they attack Democracy, the firmer ought Democrats to adhere to the good old party and its good old principles, and the more bitterly they attack true Democratic men, the more faithfully ought we to stick up to and support them. The man who acts on a time-serving, temporary policy in defeat, is not to be trusted or promoted in victory-he is not the true grit. The "floating capital pointicians" may as well hang their harps upon the willows - the people of the South have found them out-their vocation is at an end, and their abuse is the greatest compliment they can bestow.

RAILROAD MEETING .- Pursuant to public notice, a meeting of citizens feeling an interest in the construction of the Wilmington, Charlotte & Rutherford Railroad, was held at the Court-House, last night. The attendance was a full one. John A. Taylor, Esq., presided, and T. J. Norcom, Esq., acted as Secretary. Addresses were made by the Chairman on taking his seat, by H. L. Holmes, Esq., Gen. Alex. McRae, A. H. VanBokkelen, Esq., Dr. F. J. Hill, and, we think, one or two other gentlemen, whom we did not hear. The necessity of the work, the question of a town subscription, as well as other matters thereunto pertaining, were discussed, the general impression seeming to be that the Road must be built. The audience was calm, attentive and considerate, as became the subject, to the consideration of which neither passion nor impulse can properly be brought. The question of a town subscription is one which every I have no objection whatever to the language or the voter must decide for himself, after careful examination, and unswayed by partizan feelings or excited appeals. WASHINGTON, May 23. The Virginia election, which takes place to-mor ow, is looked upon with deep interest by the Administration, and by the public generally, in every part of the Union. Northern Abolitionism and Nulification always the grim monster, Death.

There is another view of results, founded upon the possible election of the Whig Know Nothing ticket in Virginia, by a large and decided majority. A small majority for Mr. Flournoy over Mr Wise, would have no effect to vary the great political results which I have indicated. A decided Whig and Know Nothing triumph in Virginia, would create a powerful coalition of the same elements in the whole South, which would be courted by the Whig and Know Nothing party of New York, of Pennsylvania, and of Ohio, and other Northern States. For the sake of power, the Northern party would agree to ignore the slavery question, and come in with their Southern allies, to take the spoils. This is a possiremark, that the Virginia election is the turning point of the politics of the country.

The vote will be about 140,000 -not more, should think-and Mr. Wise may be elected or beaten by an inconsiderable majority. Bets are even, and opinions balanced as to the result. No one can safely guess at the extent of the influence of the new elements of Know Nothingism over the result.
